

“We Care” Campaign IoM

An Eco initiative

We’re inviting Churches, Chapels, Schools, Communities, Youth Groups, Organisations, Environmental Groups, Work Places, Offices, Businesses etc. across the Island to add their voices to the “We Care” Campaign IoM

What do we most care about when we think about the impact of Climate Change ?

Is it your children’s, or your grand children’s future?

Or, the changing environment, the loss of wildlife, birds, animals, flowers, forests

Or, the possibility of regular droughts, or more severe flooding and extreme gales?

Or, people in other parts of the world who are already facing climates extremes.

Or the prediction of increased food shortages?

..... Or is it all these **AND SO MUCH MORE ??**

- The “We Care” Campaign IoM is aimed at letting our Government know that we really do care.
- That we *want* them to take action now to reduce carbon emissions.
- We *want* them to implement their plans now to invest in green energy that’s NOT dependent upon importing fossil fuels.
- That they have our backing and support to put their Climate Change Action Plan into action **as soon as possible** to help bring about the change we want to see in the world.

How do we let them know “We Care“?

- **Colour in /fill in the “We Care” postcard and send it to your MHK.**
- **Download and colour** in the “We Care” sheet on the website, take a selfie with it and send it to your MHK telling them what your main concerns are about climate change, that you support them in taking action on carbon reduction, *and what actions you yourself are taking to reduce your own carbon footprint.*
- **Be artistic!** Decorate a paper-plate, either with a photo, or pictures. Or, turn your paper plate into an animal mask, or decorate it to become a plant, tree, bird, fish, whatever you care about. See :Google images: paper plate creatures... & have fun!
- **Take a selfie with your plate** and send it to your MHK with a “We Care” sheet
- **Save your plates and then come join us** when we gather together to let our Government know how many of us really do care about Climate change and are working to reduce carbon emissions across the Island! Find us at www.eag.im
- when contacting your MHK make sure you include your name & address.
